EDUCATION

M.Tech in Computer Science, International Institute of Information Technology Bangalore July 2024 – Present
GPA: 3.58/4

Bachelor of Engineering in Computer Science, Sapthagiri College Engineering August 2017 – July 2021
GPA: 3.59/4

EXPERIENCE

IoT Intern, SmartBridge, Remote [Link](#) Aug 2020

- Built end-to-end smart surveillance system using IBM Watson IoT for real-time monitoring and control.
- Integrated image capture with Cloud Object Storage, Cloudant DB, and Watson Visual Recognition for threat detection.
- Orchestrated flows via Node-RED and triggered Fast2SMS mobile alerts for unknown face detection.

PROJECTS

Banking Management System — C [Link](#) November 2024

- Developed a system simulating core banking functionalities including customer management, transaction handling, loan processing, and administrative oversight.
- Implemented using system calls, websockets, and file locking programming concepts.

Security System — Python, Flask, LangChain, TensorFlow Lite, FAISS, Raspberry Pi 3B+ [Link](#) Apr 2025

- Deployed MobileNetV3 (TFLite) on Raspberry Pi for real-time object detection and alert-based video streaming.
- Integrated BLIP, T5, LLaMA 3.2 to auto-summarize alerts with Twilio-WhatsApp/Gmail-based notifications.
- Built RAG pipeline using FAISS to index/summarize daily visual data and served via REST API.

Custom GPT-2 for Raspberry Pi — PyTorch, Raspberry Pi 3B+ [Link](#) May 2025

- Built a lightweight GPT-2 model in PyTorch tailored for Raspberry Pi 3B+ via hyperparameter tuning.
- Published as a PyPI package: `sagar-neuron-gpt2` (38MB), designed for efficient edge inference.
- Achieved a perplexity score of 20.

TeleManas Project (Ongoing) — Streamlit, LangChain, LangGraph, LoRA, MySQL, SQL [Link](#) Jan 2025 – Present

- Ongoing government-funded project under college for the national TeleManas mental health initiative.
- Building an intelligent dashboard that converts natural language queries into visual insights using LangChain.
- Automates data analysis to address policy-related queries from Government of India stakeholders.

PUBLICATIONS

Predicting Soil pH using Mobile Captured Picture [Link](#) March 2021

TECHNICAL SKILLS

Languages: Python, C, C++ **Technologies/Frameworks:** TensorFlow, PyTorch, Docker, Git, GitHub, GitHub Actions, Flask, MySQL, SQL, ML Flow, Apache Airflow, Raspberry Pi

RELEVANT COURSEWORK

Software Systems Concrete Mathematics Machine Learning Mathematics For ML Enterprise System Development
Visual Recognition Multi Objective Machine Learning Project Elective

LEADERSHIP / EXTRACURRICULAR

Volunteered in institute-level activities and events under the Aikyam student body.

Spring 2020 – Present

District Level Table Tennis Winner.
